PROFESSIONAL SUMMARIES

Detail-oriented IT professional with a strong foundation in IT Operations and Project Coordination. Proven track record in Agile methodologies, vendor management, and technical documentation. Highly effective at bridging the gap between technical requirements and end-user needs by producing structured project artifacts, including comprehensive system manuals, architecture maps, and standard operating procedures. Committed to operational transparency through consistent reporting and structured meeting documentation. Seeking a Project Coordinator role to drive seamless project execution, cross-functional collaboration, and audit-ready departmental workflows

EXPERIENCE

Junior Project Coordinator

Sep '24 — Feb '25

YOMA Group

Yangon, Myanmar

- Orchestrated IT project workflows using ClickUp and acted as the primary liaison between technical teams and stakeholders.
- Managed multi-site IT operations across 40+ F&B branches by coordinating vendors, conducting CCTV inspections, and maintaining IT asset inventory.
- Drafted, refined, and maintained internal standard operating procedures (SOPs) and technical documentation to ensure audit readiness and streamline departmental workflows.
- Analyzed Power BI dashboards to deliver data-driven status reports, improving management transparency and resource tracking.
- Conducted cybersecurity awareness training (DLP protocols, phishing simulations) for 50+ cross-functional staff.

Frontend Web Developer Intern

Jul '24 — Aug '24

HiSkyTech

Pakistan (Remote)

- Developed responsive web applications using React.js and Node.js within an Agile development environment.
- Implemented WebSockets for real-time features and participated in system testing to meet deployment standards.

EDUCATION

Bachelor of Science (Honours) - Top Up in Computer Science, University of Northampton (GPA: First Feb '25 — Apr '26 Class Honours) Singapore

- Focus: Advanced full-stack architecture, AI techniques, Cybersecurity, and Modern databases.
- Key achievement: Gained expertise implementing secure authentication and AI-driven features in web applications.

Higher Diploma in Infocomm Technology, TMC Academy (GPA: High Distinction)

Feb '23 — May '24

Singapore

- Core Skills: Object-Oriented Programming (Java, C++, C#), Cloud Computing, and IT Project Management.

CERTIFICATIONS

Atlassian Agile Project Management Professional Certificate, Atlassian

Nov '25

PROJECTS

Samwise ~ AI-Enhanced Project Management Tool, University of Northampton [Link](#)

Jun '25 — Jan '26

- Architected a full-stack collaborative PM application (inspired by Jira/ClickUp) to streamline team task tracking.
- Managed the end-to-end SDLC, defining project scopes, conducting extensive UAT, and mitigating deployment risks.
- Implemented WebSockets to deliver live updates for task changes and team chat, ensuring real-time collaboration.
- Integrated Google OAuth for secure authentication and developed AI features to assist with task categorization and workflow optimization.

University of Sam (Diploma Final Project), TMC Academy [Link](#)

Feb '24 — Apr '24

- Architected a secure, dual-portal web platform (Staff/Student) to streamline academic administration.
- Produced end-to-end project artifacts, including system architecture maps, role-based access protocols, and detailed user manuals, ensuring 100% project documentation audit-readiness.

SKILLS

Project Management Agile/Scrum, Budgeting, Resource Scheduling, Risk Assessment, SDLC (Software Development Life Cycle), Stakeholder Management, User Acceptance Testing (UAT)

Operations & Data Data Analysis, Excel (Pivot/VLOOKUP), IT Asset Tracking, SLA Monitoring, SOP Creation, SOPs, System Architecture Mapping, Technical Documentation, Vendor Management, Workflow Automation

Software & Tools ClickUp, Docker, Figma (basic), Google Workspace, Jira, Microsoft 365 (SharePoint, Teams, PowerPoint), Microsoft Project, Power BI, Trello, VS Code

Languages Burmese (Native), English (Fluent), Mandarin (Conversational)
